In Dr. Scoville's absence, I am taking the liberty of responding to your letter of July 10, 1962, which forwarded your proposal, [REDACTED] for comment. 25X1A5a1

This does appear to be a rather interesting idea, but Dr. Scoville's office does not have cognizance over this sort of equipment. I am therefore forwarding the proposal to the appropriate office, with which you are familiar.

Sincerely,

SIGNED

Edward E. Giller
